Dear Professor Wrone:

Thanks very much for your thorough review of Philip H. Melanson's **Spy Saga: Lee Harvey Oswald and U. S. Intelligence.** We also appreciate your inclusion of copies of pertinent material relating to the review.

Given our eighteen-month backlog of book reviews, it is difficult to say precisely when the review will be published. The earliest tentative issues in which it could appear would be those of August or November 1992. We will try to work it in earlier than that if we can.

Thank you again for your interest in and contribution to the **Journal.**

Sincerely,

John B. Boles
